

# cimJOINT™

- CimJOINT telescopic expansion valves and unions allow you to cut in a new valve or repair a leaky pipe in minutes, with or without cutting a thread or soldering a joint
- Expands up to 1-3/8"
- Available with threaded or compression ends for connection to copper, iron, steel, galvanized and stainless steel pipe and tubing
- Solves expansion and contraction problems in pipe systems
- Screws into pipe work without the need of couplings, unions or nipples
- Rated at 232 PSI; working temperature range: -4° to 248° F
- A must-have for easy, quick, and safe repairs

## Fix Steel Pipe in 4 Easy Steps!

### 1 Cut Out the Old Valve

### 2 Insert CimJOINT

### 3 Tighten One End

### 4 Pull Telescopic Union & Tighten

## cim240.1 Union - Iron Compression

- Manufactured ISO 9001
- Acts as a fitting and expansion union at the same time
- Reduces repair time and eliminates multiple fittings
- Iron compression connection allows for installation on steel pipe **without cutting threads**

Size	Cim No.	List Price
1/2"	240-04	\$64.11
3/4"	240-06	\$80.20
1"	240-07	\$101.56

## cim440.1 Union - Copper Compression

- Manufactured ISO 9001
- Acts as a fitting and expansion union at the same time
- Reduces repair time and eliminates multiple fittings

Size	Cim No.	List Price
1/2"	440-04	\$28.47
3/4"	440-06	\$33.73
1"	440-07	\$38.69
1-1/4"	440-08	\$54.16

## cim63.1 Valve - FIPT x Iron Comp.

- Manufactured ISO 9001
- Full port ball valve
- Iron compression connection allows for installation on steel pipe **without cutting threads**
- Add shut-off or isolation valves inline without using coupling, unions, or small nipples

Size	Cim No.	List Price
1/2"	63-04	\$57.66
3/4"	63-06	\$77.30
1"	63-07	\$99.65

## cim66.1 Valve - FIPT x Copper Comp.

- Manufactured ISO 9001
- Full port ball valve
- Add shut-off or isolation valves inline without using coupling, unions, or small nipples

Size	Cim No.	List Price
1/2"	66-04	\$49.31
1"	66-07	\$65.02

## cim463.1 Valve - Iron Compression

- Manufactured ISO 9001
- Full port ball valve
- Iron compression connection allows for installation on steel pipe **without cutting threads**
- Add shut-off or isolation valves inline without using coupling, unions, or small nipples

Size	Cim No.	List Price
1/2"	463-04	\$71.18
3/4"	463-06	\$96.66
1"	463-07	\$124.19

## cim563.1 Valve - Copper Compression

- Manufactured ISO 9001
- Full port ball valve
- Add shut-off or isolation valves inline without using coupling, unions, or small nipples

Size	Cim No.	List Price
1/2"	563-04	\$49.03
3/4"	563-06	\$53.53
1"	563-07	\$72.62
1-1/4"	563-08	\$93.04
